Dear partners!

«Kubgaz-Oil» (<http://kubgaz-oil.ru>), a member of the «Neftegaz-invest Group» («NGI Group») was established in 2015 in the framework of the project on cooperation in foreign economic and investment spheres. In the framework of this project, signed between the Ministry of Economic development of Russia and the Government of Krasnodar region. «Kubgas-Oil» provides in the attraction of foreign investments in the Russian fuel and energy complex and facilitating the export of oil products and gas. In this project, we conduct the selection of foreign partners interested in:

- Direct investment in infrastructure projects fuel and energy complex (construction of plants for gas flaring associated gas (GTL technology), LNG, Refinery);
- The purchase and development of oil and gas;
- Entry into the shareholders of the existing refineries;
- Trade of the Russian energy resources.
- Long-term financing (advance) contracts for the purpose of obtaining products of the petrochemical industry for primary prices, processing.

Our company is based in Krasnodar (Krasnodar Region) where 9 sea ports of Tuapse, Novorossiysk, Temryuk, Yeisk, Taman, Anapa, Kavkaz, Sochi, Anapa. Through 5 of them transshipment of more than 40% petrochemical products are being produced. We work in these business segments:

- Jet fuel,
- Diesel fuel,
- Fuel oil,
- Marine fuel,
- Gasoline,
- Natural gas (Central European Gas Hub Baumgarten, Austria), LPG, CNG

Activities «NGI Group» (<http://neftegaz-invest.ru>) includes attracting investment and trading petrochemical products and natural gas pipelines, food (wheat grain, rice, flour, sunflower oil, sugar), agricultural land. Field of interest «NGI Group» is to attract investments and investment support project (Investment & Asset Management, Stock Market, Medicine (VIP treatment, medical tourism), Timber Cluster, IT).

We provide also consulting services in finance, promotion of petrochemicals and support of export transactions. Consumers and trading companies we assist in buying, distribution and export of petrochemical products. Deliveries are made directly from resource directory (owners of production), which gives the opportunity to supply the goods in large quantities and at competitive prices. «Kubgaz-Oil» through «NGI Group» provides access to the Russian market and contributes to the additional increase in quota and supplies. Our competitiveness in the market is based on the understanding of the petrochemical market, financial opportunities, synergies and administrative resources. Our company has the capability to organize supply of petrochemical products for customers worldwide. Financial capabilities allow us to find the best solutions for our partners. «NGI Group» cooperates only with competent producers (sellers) and buyers to ensure that trade large volumes of products.

The main objectives of the «NGI GROUP» in the project are:

1. The organization of exports and support of transactions for the supply of oil and gas from affiliated companies PJSC «Gazprom», OJSC «Rosneft»;
2. The attraction of direct investments in the development of oil and gas fields, construction of LNG plants, refineries.
3. Attracting foreign direct investment for infrastructure projects PJSC «Gazprom» and OJSC «Rosneft».

The development of oil and gas fields jointly with foreign investors for the organization of production and processing, to export products to developing countries - is one of the promising areas over which the active work. This will allow for energy supplies to customers worldwide. In the framework of investment projects proposed acquisition of oil and gas fields (not developed with the existing refinery) for the prospects of increasing exports of manufactured products. Currently, there are seven proposals to acquire licenses to the years 2030-2037. The priority of the company - strengthening the NGI Group's position, as the provider of the largest Russian suppliers of hydrocarbons to the world markets through building long-term partnerships with the world's leading traders and end users of oil and gas, financial trading organizations, innovation transfer of investment in the Russian economy. The «NGI Group» relies on the features and tools Intergovernmental commissions and working groups on the development of relations in the sphere of energy, economy, investment and international trade. Deliveries of production possible way pipeline, sea and railway transport. Financial assistance for the development of this area and trading of hydrocarbons possibly in the form of assistance in lending to European banks for the acquisition of fixed assets, the construction of the LNG plant and refinery of oil and gas, the purchase and sale of oil products (the presence of contracts with suppliers, buyers required).

We invite interested companies to long-term cooperation.

President Of «NGI Group»

Н.П. Плотников
