

# Presentation of Tatneft Petrochemical Complex

## Tatneft Petrochemical complex

Location: Russian Federation, Republic of Tatarstan, Nizhnekamsk

Output products: tires, carbon black, engineering products

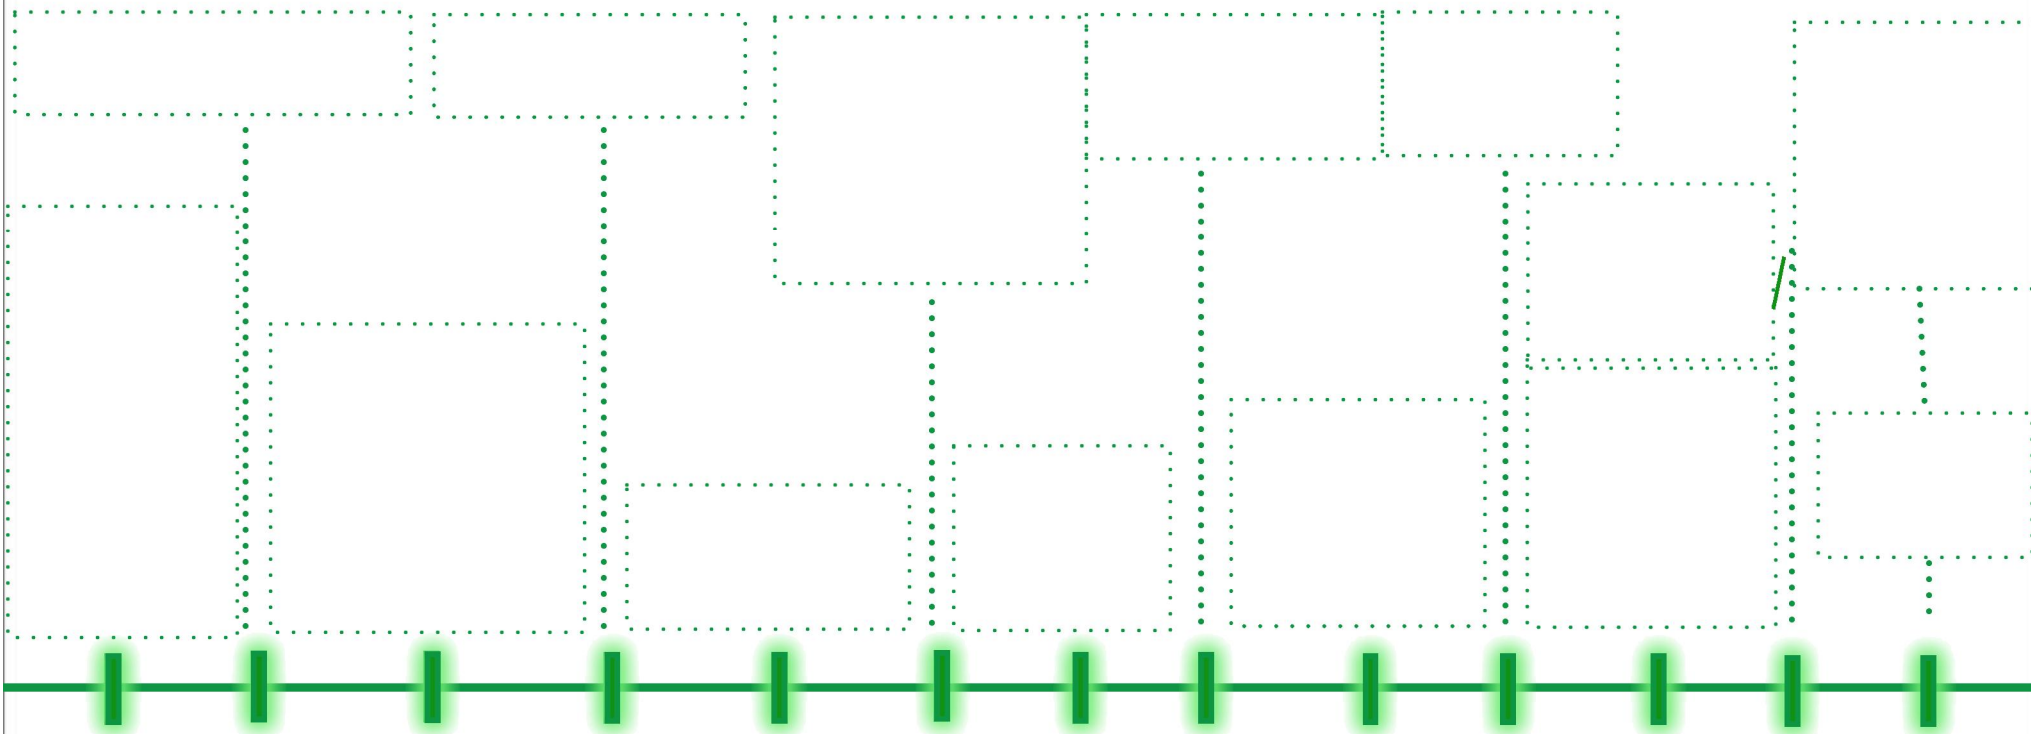

Tire production output: 17,2 mln. tires per year (2014)

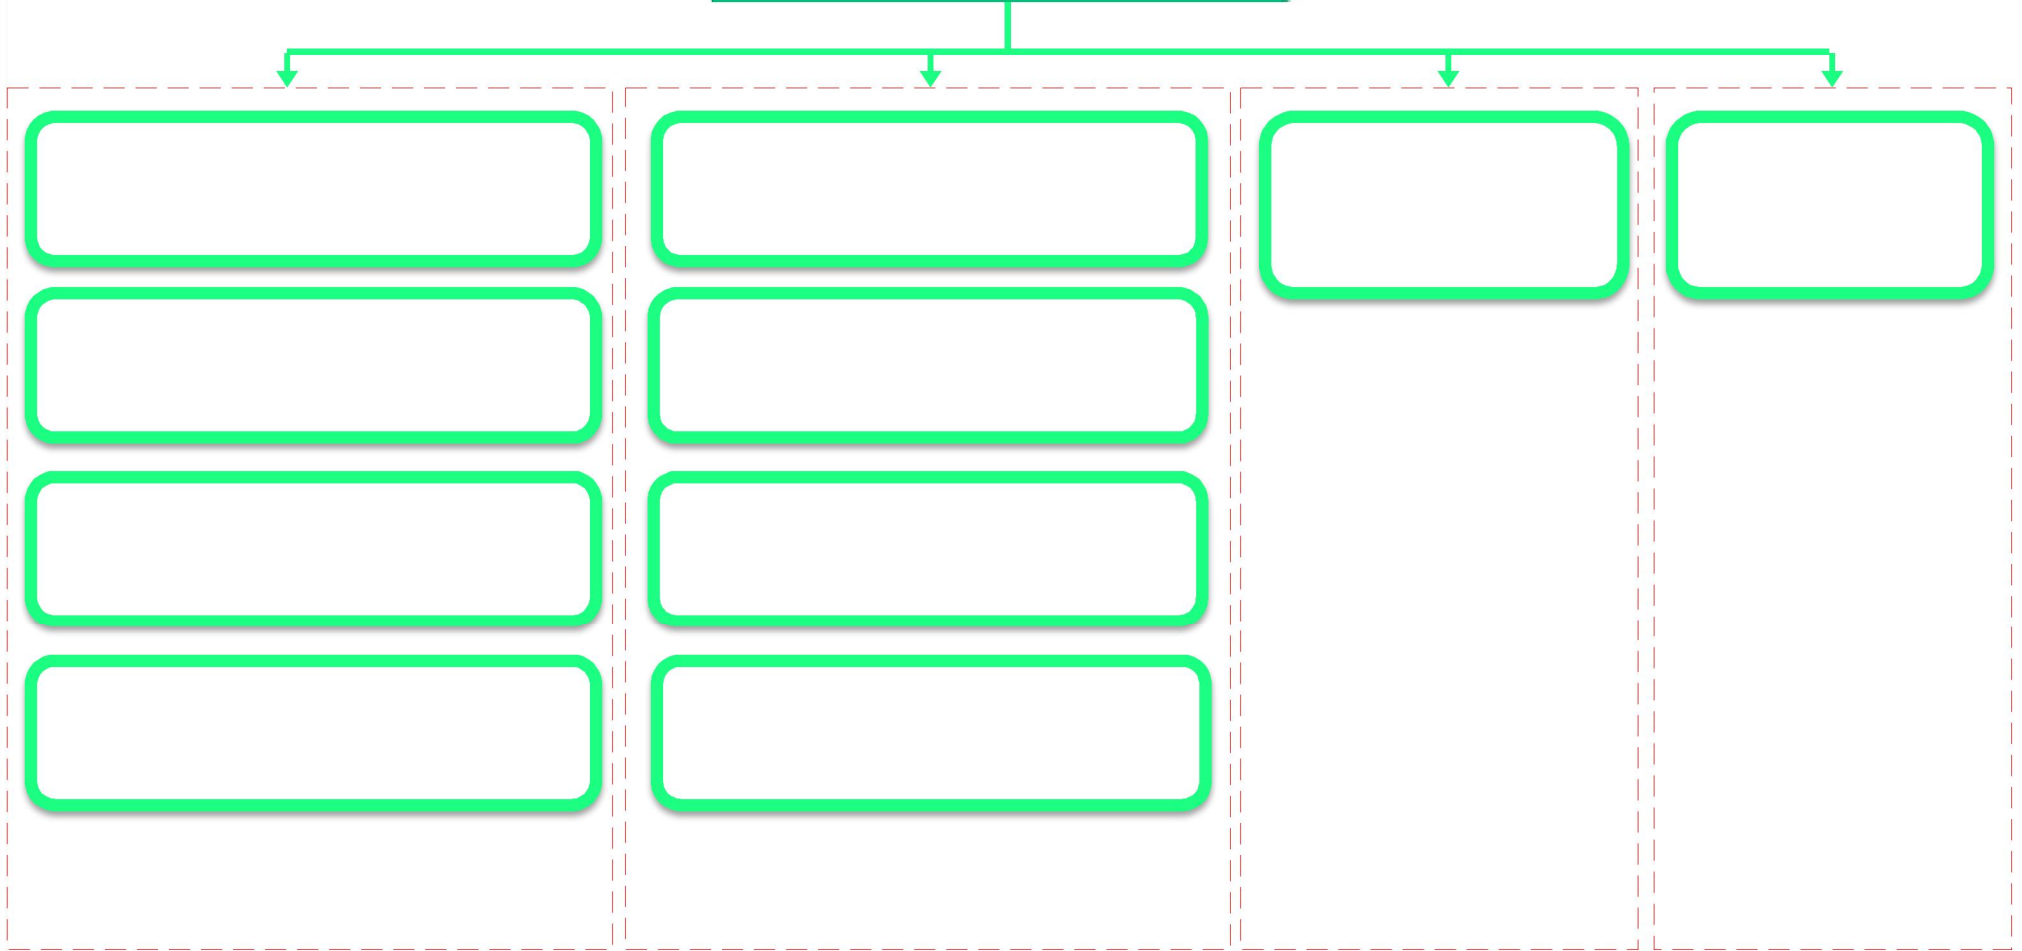

Carbon black production output: 115 thsd. ton per year (2014)

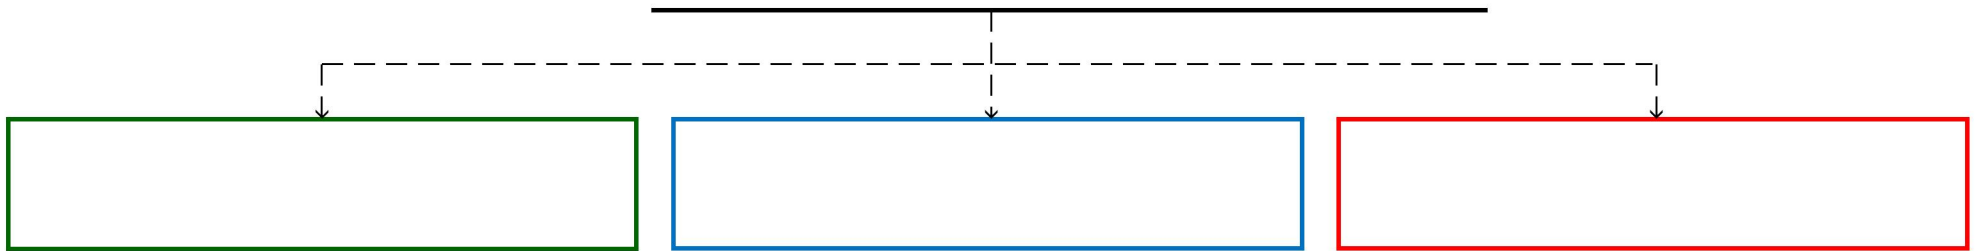

Personnel: 12 thsd. employees (2014)

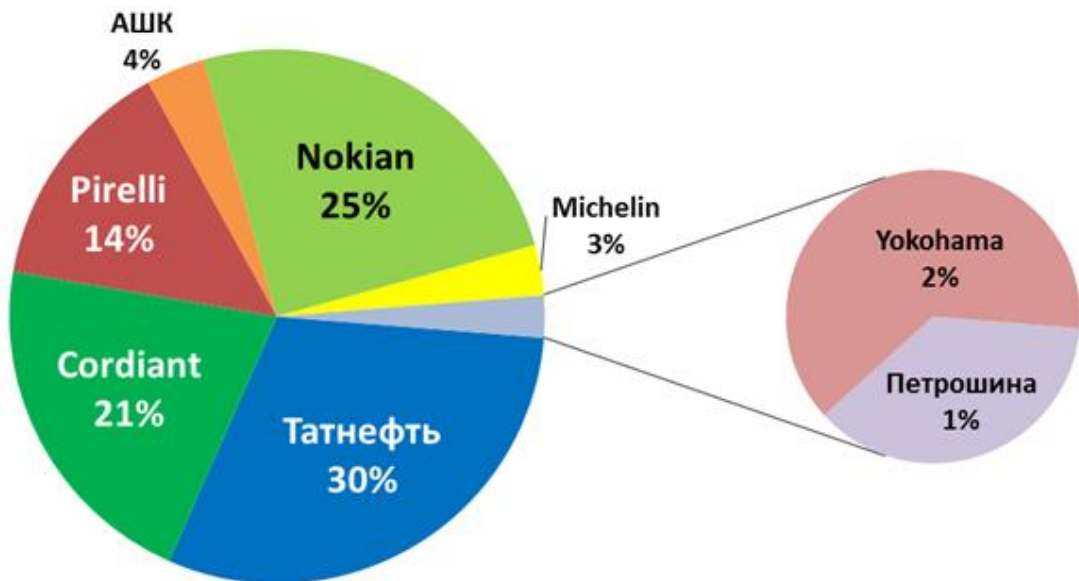

Volume of sales, production and services: 33,7 billion rubles (2013)

The main distributor of tires and carbon black on Russian and export markets is Trade House Kama. Detailed information on the range of production you can see on website [kamatyres.com](http://kamatyres.com).

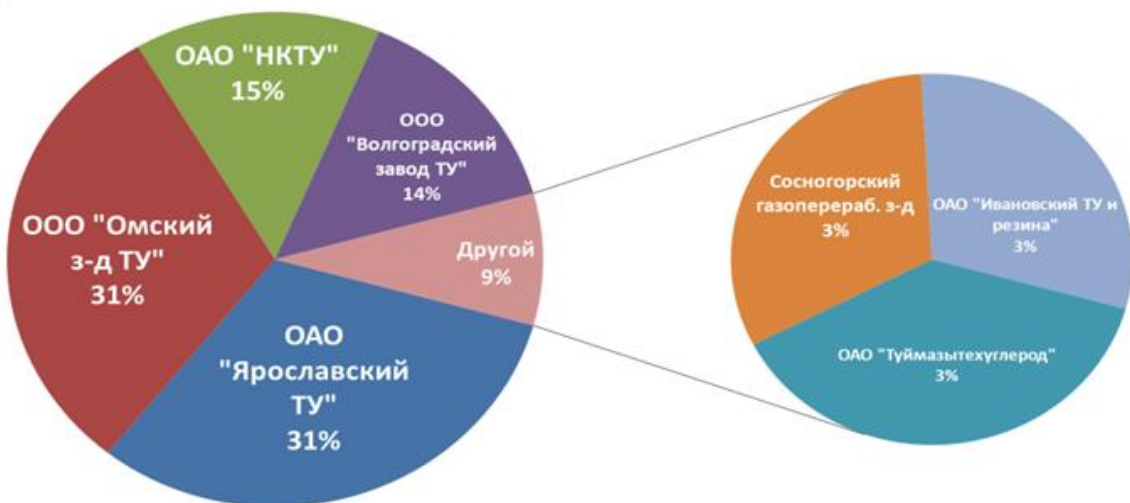

## Tatneft petrochemical complex:

➤ The largest tire manufacturer on the territory of Russia

➤ One of the four largest carbon black manufacturers in Russia

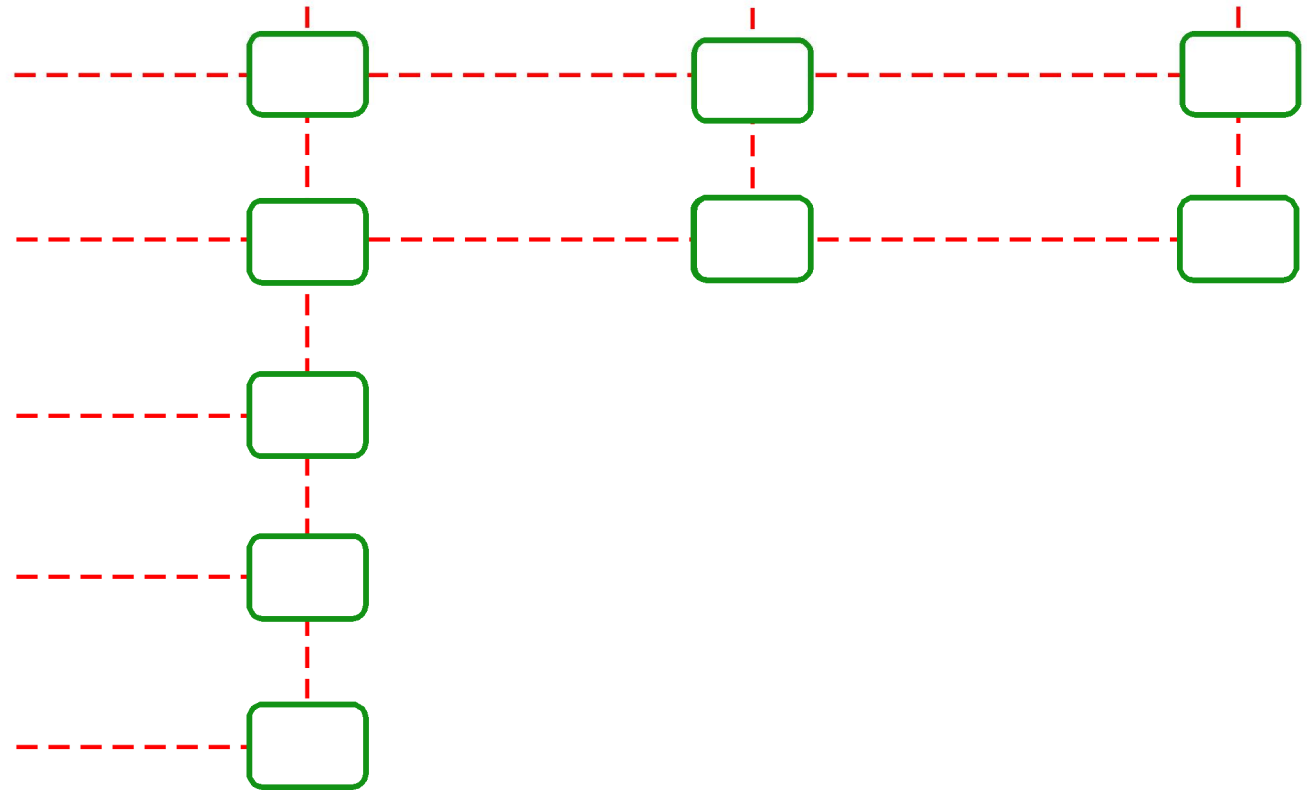

Plant	Type of output production	Share of the plant in general production output	
ОАО Nizhnekamskshina	PC tires Light truck tires Truck tires (tubed) Agricultural tires Industrial tires	81%	Tires
Nizhnekamsk Truck Tires Plant	Truck tires (tubed) Agricultural tires	14%	
Nizhnekamsk All Steel Tires Plant	All steel truck tires (tubeless)	5%	
Nizhnekamsk Carbon Black Plant	Carbon black - 14 types	100 %	CB
