University of Ferrara, Italy, 2012

Eurofins laboratory testing services, Sweden, 2012

RAMS Institute of occupational health, Russia, 2012

Institute Pasteur de Lille, France, 2014

# Tests confirmed retaining of

rotavirus and norovirus

hepatitis A virus

MS2 bacteriophage

herpex virus

poliovirus

model bacteria and coliphage f-2

escherichia coli

pseudomonas aeruginosa

# Removal of

hardness salts  
heavy and radioactive metals  
iron  
organic compounds and pesticides  
chlorine  
oil-products  
aluminium

# Our production capacity (pcs/month):

## **Household equipment**

Stationary 1-, 2-, 3- step water filters 25 000 pcs

Household RO systems 25 000 pcs

Faucet-mounted filters 40 000 pcs

Pitchers 110 000 pcs

Wide range of cartridges 750 000 pcs

In-line filter housings 50 000 pcs

# What else we can offer: **Industrial equipment**

Multi-purpose filtering media

Filter housings

Big capacity RO systems for industrial purposes

Control valves

Turnkey solutions for waste water treatment

# Let us sum up what you know by now about **Geyser**:

Top player	on the water treatment market
with more than	30 years history
having stable	distribution footprint
with representative	office and storehouses in EU
able to manufacture	worldwide patented filter material
and having impressive	product range
of	guaranteed quality
