World record has fallen!

Now-100 Poods Tzar-Kettlebell (1638kg)!

Ural Kettlebell weight of 100 Poods (an old Russian measure of weights, approx. 1638 Kg) was made by the Ural masters. The information about "King-Kettlebell" was included in the Russian Book of Records (the national analog of the Guinness Book of Records) in the category "The Most Heavy Kettlebell". It took 26 strong people to install so heavy Kettlebell on a pedestal in the town of Verkhneural'sk. The inscription on its side: "Everything will be OK. Guaranteed!"

CHAMPION KETTLEBELLS

Professional line (Competition)

Champions Kettlebells are used for professional workouts and for competition preparation of kettlebell lifting champions. A wide range of weights allows for the perfect organization of the workout process and accurate planning of exercises to reach the best results. The complete selection of Champions Kettlebells includes weights from 6 kg to 40 kg in increments of 2 kg. Every weight has its own color. Champions Kettlebells are perfect for professional workouts, they help athletes develop and hone their skills to improve results. The Ural Kettlebells are also used in the World and European Championships. The most recent world records in kettlebell lifting were set using our products.

THE ADVANTAGES OF CHAMPION KETTLEBELLS

- they are used at major International, European and World Championships in Kettlebell lifting;
- handle seam (flashing) has been removed, perfect handle surface does not slip in the hand and ideal for use with chalk powder;
- they have the ideal form: the dimensions accuracy and precise weight +40g;
- they have the excellent weight balance, high located gravity center (very close to the handle);
- they have convenient of the handle safe against injuries and high-quality surface coating.

So it is the most convenient and comfortable kettlebells. They have as smooth as possible, stable and soft movement and also soft fixation in the top position.

URAL KETTLEBELLS

Semi-professional line

Ural Kettlebells are perfect for home and commercial gym use. The shape of the ball and the handle of these kettlebells closely resemble the Competition Kettlebells' design. The weight precision requirements of the Ural Kettlebells are more exact than for Amateur Kettlebells. Ural Kettlebells are semi-professional kettlebells used in preparation for kettlebell lifting competitions, in kettlebell fitness, CrossFit, and kettlebell power juggling. The complete selection of Urals Kettlebells includes weights from 5 kg to 40 kg in increments of 2 kg. All kettlebells have black color.
