RUSSIAN ENERGY WEEK

OCTOBER 3-7, 2017
Moscow – St.Petersburg

www.rusenergyweek.com

 **ROSCONGRESS**

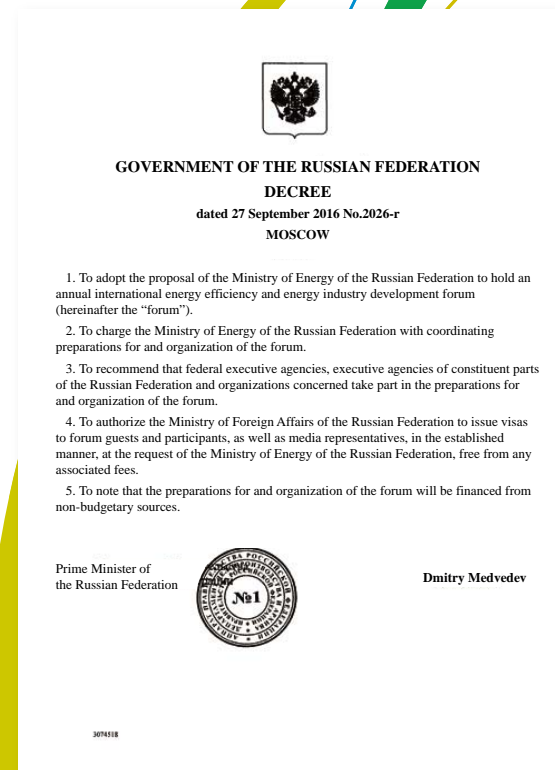

Vladimir Putin, PRESIDENT OF THE RUSSIAN FEDERATION

«Thanks to its broad representativeness and busy programme, the profile of its participants and their keen interest in dialogue, the ENES Forum has evolved into one of the major industry-specific events. Its holding on a regular basis facilitates further coordination of efforts in the sphere of energy and energy efficiency...»

In accordance with a Russian Government Decree, Russia's biggest international energy efficiency and energy industry development forum (ENES) is held annually with the support of the Ministry of Energy of Russia (Russian Energy Week starting from 2017).

Every year, the Forum brings together over 10,000 top officials and executives of relevant Russian ministries and agencies, constituent parts of the Russian Federation, and major energy companies, as well as representatives of the expert community.

RUSSIAN ENERGY WEEK

Date and venue

October 3-7, 2017
Moscow – St.Petersburg

Vision

Creating a unified industry-specific business dialogue platform at an international level in Russia.

Goals and objectives

The main goal of the event is to discuss relevant issues of the global energy agenda, determine the main growth areas for the fuel and energy sectors and seek the best solutions to current challenges.

The Forum will be attended by top executives of major Russian energy companies.

**The Russian Energy Week
will be the year's highlight
on energy in Russia.**

FORUM MILESTONES

THE RUSSIAN ENERGY WEEK FORUM SUCCEEDS THE ENES FORUM, WHICH, DURING ITS FIVE YEARS, HAS BEEN A MAJOR EVENT ON ENERGY EFFICIENCY IN RUSSIA AND ABROAD.

In 2016:

15 992 guests in 3 days

51 exhibition stands at the Forum's exposition

40 business programme events

85 constituent entities of Russia

25 foreign governments

CORE EVENTS OF THE FORUM

- 2016** First international summit of mayors on improving energy efficiency and sustainable development of cities
- 2015** First meeting of the BRICS ministers of energy
- 2013** Meeting of the Presidium of the Presidential Council for economic modernization and innovative development of Russia

MAIN AREAS OF FOCUS OF THE RUSSIAN ENERGY WEEK FORUM BUSINESS PROGRAMME

Development of the gas industry

Development of the oil industry

Development of the petrochemical sector

Development of the coal industry

Development of the electric power sector:

- power grid
- nuclear power
- thermal power generation
- hydraulic power and renewable energy

Energy saving and boosting energy efficiency

The Forum is expected to feature international bilateral meetings, agreement signing ceremonies, meetings of intergovernmental and government commissions relevant to the Forum's agenda.

COMPETITION PROGRAMME OF THE RUSSIAN ENERGY WEEK

April 1, 2017 – September 21, 2017

ALL-RUSSIA COMPETITION OF COMPLETED ENERGY SAVING AND ENERGY EFFICIENCY PROJECTS ENES 2017

Candidate applications for the nationwide round are accepted from April 1 to August 10 2017.

Regional competition rounds are to be run by the competent authorities of the constituent entities of the Russian Federation.

Deadlines are to be determined regionally.

Projects winning regional rounds are to be examined at the federal level.

Competition winners are to be determined by open Internet vote on September 15–21, 2017.

Award ceremonies for the winners are to be held as part of the Russian Energy Week on October 3–7, 2017.
