

# **Supplies of fluffy and sheeted COTTON LINTER PULP (COTTON CELLULOSE) produced in the Republic of Uzbekistan**

# ABOUT THE GROUP OF COMPANIES

The group of companies "MegPromTex" was founded in 2012 as a supplier of cotton linters from Central Asia to the Russia, CIS countries and China.

During the years of our successful work, our team has accumulated a huge experience of the export-import supplies, expanded the geography and the range. In 2015 the company entered the European market, immediately recommending itself as a reliable and responsible partner.

A wide range of products, offered by us on the market, includes cotton linters, bleached cotton fibers, **loose (fluffy) and sheeted cotton cellulose (cotton linter pulp)**, as well as industrial nitrocellulose, sodium carboxymethylcellulose and moulding compounds.

We are the official dealer of the largest cotton linter pulp manufacturers of the Republic of Uzbekistan and the key partner of the leading manufacturers of sodium carboxymethylcellulose (Na-CMC), nitrocellulose and gunpowder, moulding compounds, special types of paper of Russia, CIS countries and Europe.

Modern technology, high-quality raw materials, compliance with all environmental requirements and norms, enable us to produce the product in accordance with modern international standards. The flexible manufacturing process makes it possible to take into account the individual requirements of all customers.

Our main task is to satisfy the needs of each customer, meeting all terms and volumes of shipment.

The main principles of our work are efficiency, responsibility, professionalism and individual approach.

# OUR PRODUCTS

We offer to supply **cotton linter pulp** of the following types:

- **fluffy (loose) CLP - manufactured in accordance with the GOST 595-79 ;**

- **sheeted CLP.**

- **Quality of goods** is confirmed by quality certificates of manufacturers.

- **Delivery** is carried out by all means of transport: road, rail, sea transport or multimodal transportation.

- **Terms of shipment** are subject to the INCOTERMS-2010.

- **Prices** of cotton linter pulp offered by us are individual and depend on the requested quality characteristics, terms, and volumes of shipment.

- The production capacity of our plants reaches **2 000 MT** of fluffy and sheeted cotton linter pulp **per month**.

The plants are equipped with the latest equipment of European manufacturers, the production lines are fully automated, which makes it possible to produce the product that meets international quality standards.

- Production is certified by **ISO 9001:2008**.

# FLUFFY

## COTTON LINTER PULP

Fluffy cotton linter pulp is manufactured in accordance with the GOST 595-79 (State Standard, Russian National Standard 595-79). The characteristics are specified in Table 1.

Products can be produced according to individual Customer requirements.

### PACKAGING:

Compressed bales, packed in polypropylene.  
The average bales weight: 80-130 kg.  
Bales size: 55-60\*72\*113 cm.

### CARGO NORM:

Truck (lorry) (20 tons, 96 m3) – 20 MT.  
40-ft standard container - 17 MT.  
Railway carriage (120 m3) – 25 MT.

### COUNTRY OF ORIGIN:

The Republic of Uzbekistan. Confirmed by the certificates of origin.

Table 1. Physicochemical quality indicators of the fluffy cotton linter pulp

№	Parameter	Actual test result
1	Alpha-cellulose, %, $\geq$	98,5
2	Water absorptivity, g $\geq$	130
3	Moisture content, % $\leq$	9
4	Ash content, % $\leq$	0,2
5	Sulphuric acid insoluble, % $\leq$	0,3
6	Dust, % $\leq$	1,5
7	Whiteness (brightness), %	till 99
8	Viscosity, mPa.S for grades: 15 25 35 70 100 150 250 350 650	10-20 21-30 31-45 46-85 86-115 116-175 176-300 301-430 431-850

# SHEETED COTTON LINTER PULP

Sheeted cotton linter pulp is manufactured in accordance with the characteristics specified in Table 2.

Products can be produced according to individual Customer requirements.

## PACKAGING:

Compressed bales, packed in polypropylene.  
The average bales weight: 200 kg.  
Bales size: 60\*80\*120 cm.

## CARGO NORM:

Truck (lorry) (20 tons, 96 m3) – 20 MT.  
40-ft standard container - 17 MT.  
Railway carriage (120 m3) – 30 MT.

## COUNTRY OF ORIGIN:

The Republic of Uzbekistan. Confirmed by the certificates of origin.

Table 2. Physicochemical quality indicators of the sheeted cotton linter pulp

№	Parameter	Actual test result
1	Alpha-cellulose, %, $\geq$	98,5
2	Moisture content, % $\leq$	4,4
3	Ash content, % $\leq$	0,05
4	Sulphuric acid insoluble, % $\leq$	0,1
5	Whiteness (brightness), %	till 99
6	Sheet thickness, mm	1,0-3,5
7	Sheet density, g/cm <sup>3</sup>	0,2-0,6
8	Viscosity, mPa.S for grades: 15 25 35 70 100 150 250 350 650	10-20 21-30 31-45 46-85 86-115 116-175 176-300 301-430 431-850

# OUR ADVANTAGES

1. We have **more than 12 years of experience** of cotton raw materials and cotton linter pulp supplies. Our team consists of highly qualified specialists who are ready to consult you and choose the grade of cotton linter pulp suitable for your production.
2. Being an **official dealer of manufacturers**, we carry out **direct shipments from factories** and have a **close connection with all divisions**, which allows us to solve current issues much more quickly.
3. Shipping cotton raw materials for the production of cotton linter pulp to the factories and participating in the production process, we **fully control the quality** and compliance with all technological standards at all production stages.
4. We supply the high quality cotton linter pulp, which is made from cotton linters of the Republic of Uzbekistan with a **high content of alpha-cellulose and maturity**.
5. Flexible production enables us to produce cotton linter pulp in accordance with the individual quality requirements of customers related to the specific of their production.
6. The plants always have the necessary stock of raw materials, which ensures **the uninterrupted operation of production** and **strict fulfillment of the delivery terms**.
7. Close cooperation with the largest European and Asian transport companies allows us to deliver goods by all types of transport, ensuring **high speed and security of delivery to anywhere in the world**.
8. **Flexible pricing** and **a variety of payment terms**.
