

## About us

- Founded in 1942, Kamensk-Uralsky Non-Ferrous Metal Processing Plant is the non-ferrous metal processing leader in Russia with 32% market share
- Over 800 employees work in the Company with production output of around 20,000 tons annually
- Rods, wire, strips, bus-bars, anodes, casting alloys, metal powders, and fine powders. Over 16,000 sizes and 140 alloys
- The products we manufacture are used in electrotechnical, metallurgical, chemical, and oil processing industries, tool manufacturing, and aviation materiel
- Our Company exports its products far abroad, e.g. Germany, France, Italy, Thailand, etc.
- Quality Management System certified complying with ISO 9001:2008 is operating in the Company

2008

Brass rod manufacturing mini-plant (made in Italy) is commissioned

2011

The EDM wire production is mastered. The wire is manufactured under own brand of BRASSTON

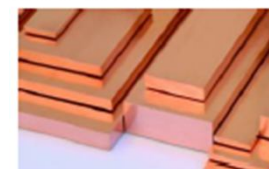

2013

UPCAST technology-based oxygen-free copper production is introduced

2014

Conform line is commissioned for copper bus-bar extrusion

2015

New types of oxygen-free copper products are developed

2016

Second Conform line is commissioned  
Our Company enters the secondary raw material sector  
New copper-and-nickel alloy products are launched

2017

-

2018

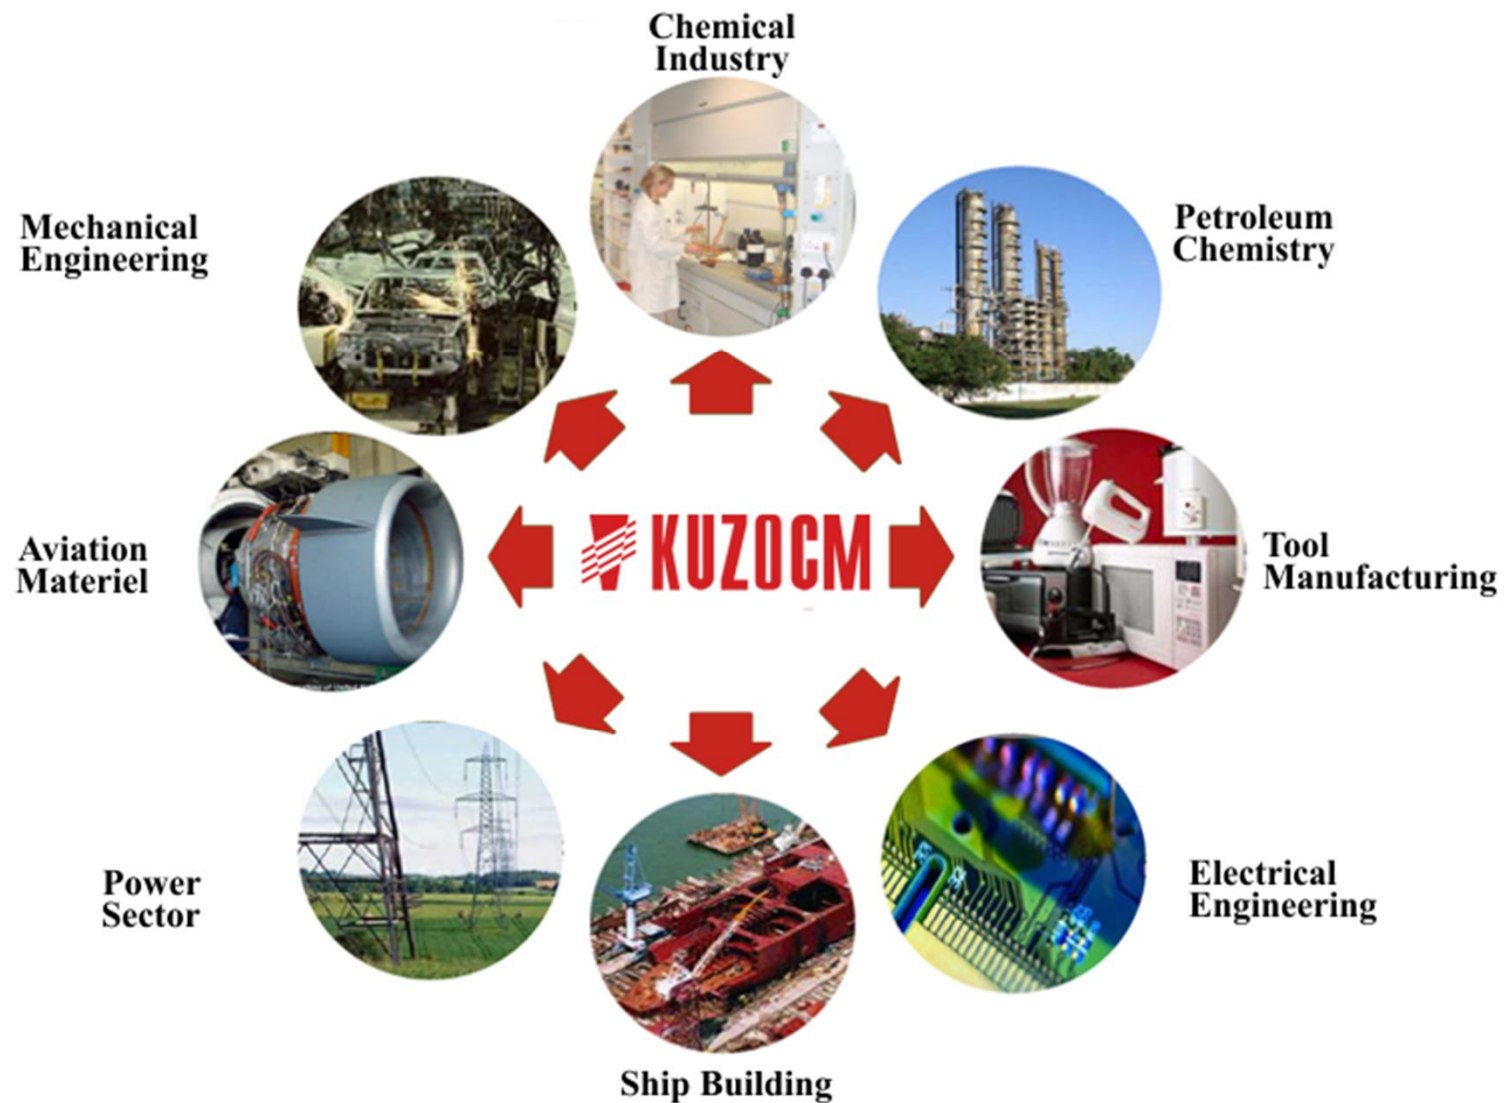

Buying vacuum shaft furnace for bright annealing  
Buying coiling device  
Installation of block-modular steam generators  
Modernization of sewage water treatment plant

## Key Consuming Sectors

## Types of KUZOCM Products

Rods, wire, strips, bus-bars, anodes, casting alloys, metal powders, and fine powders.  
Over 16,000 sizes and 140 alloys

### Copper

#### Products

- Bus-bars
- Profiles
- Wire
- Rods
- Collector plates
- Anodes
- Strips
- Ingots

#### Consuming Sectors

- Electric Engineering
- Mechanical Engineering

### Brass

#### Products

- Wire
- Rods
- Profile
- Strips
- Ingots

#### Consuming Sectors

- Tool Manufacturing
- Mechanical Engineering

### Bronze

#### Products

- Wire
- Rods
- Ingots

#### Consuming Sectors

- Ship Building
- Railway and Haulage

### Other Alloys

#### Products

- Copper-and-Nickel, Nickel, and Zinc Wire
- Copper-and-Nickel and Nickel Rods
- Nickel Strips
- Nickel Anodes

#### Consuming Sectors

- Tool Manufacturing
- Electric Engineering

### Metal Powders and Fine Powders

#### Products

- Aluminum Powders
- Aluminum, Bronze, and Copper Fine Powders

#### Consuming Sectors

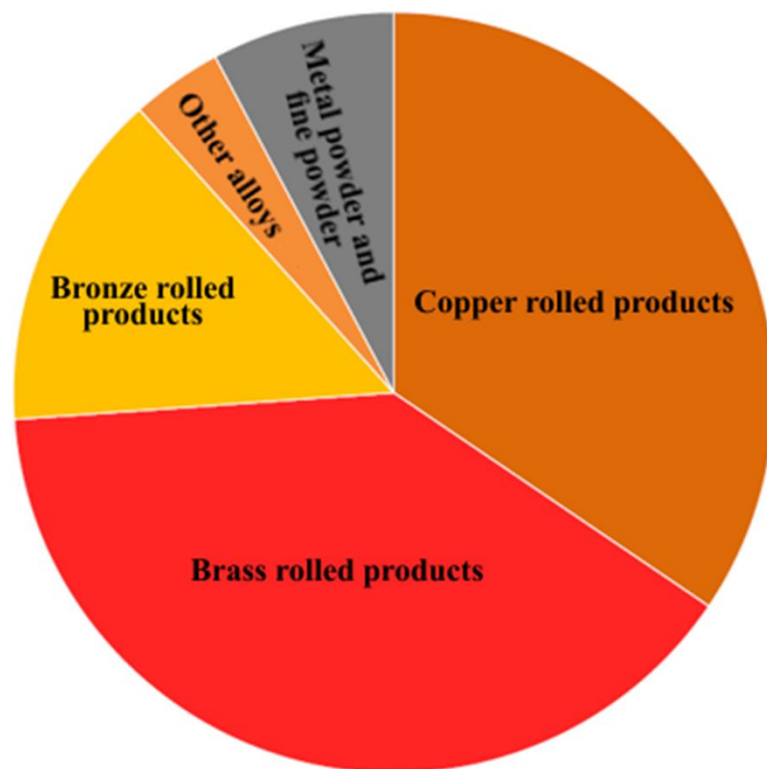

- Ferrous Industry
- Refractory Materials
- Construction Materials

## Key Customers

KUZOCM JSC is the leading player on the RF market of non-ferrous metal rolled products market, has a wide customer database among the major Russian and international companies

KUZOCM products

Key Customers

## Sales Geography

**KUZOCM declares itself strongly on the international markets via export deliveries to non-CIS countries such as Germany, France, Italy, Thailand, as well as CIS countries and Baltic countries**

### CIS

#### **Key consuming countries**

- \*Belarus
- \*Kazakhstan
- \*Ukraine

#### **The product application**

Anodes, metal powders and fine powders, bronze, brass, and copper wire, rods, copper bus-bars, and bronze ingots

### Europe

#### **Key consuming countries**

- \*Italy
- \*Czech Republic
- \*Germany
- \*Romania

#### **The product application**

Bronze and brass rods, copper strips, and copper-and-nickel wire

### Asia and America

#### **Key consuming countries**

- \*USA
- \*Thailand
- \*India

#### **The product application**

Brass, copper, and bronze rods

Based on the recertification results, International Certificates of Quality Austria and IQNet and Russian Certificate of Conformity to GOST R were granted to JSC KUZOCM.

## **Contacts**

### **Director General**

Olga Zubina

### **Deputy Technical Director**

Krasnov Vladimir

### **Acting Commercial director**

Nikiforova Svetlana

### **Director in charge of Personnel**

Veliksarov Andrey

### **Acting Production Director**

Byakovsky Aleksey

### **Executive director**

Ivanitsky Nikolay
