Volume of capital investments	not less than 2.5 million rubles within the first year
Contracts which are not envisaged:	the ones concluded with a key employer in the mono-sectoral city in which the revenue from the key employer exceeds 50% of the whole revenue of the resident
Volume of non-national manpower	< 25%
Not applicable:	<ul style="list-style-type: none">• production of excisable goods;• crude oil and natural gas production;• provision of services related to the oil and natural gas production;• pipeline transportation;• production of oil products;• wholesale and retail trade;• logging;• real estate transactions;• economic activities employing more than 20% of the staff size of all the organizations of the key employer in the city (woodworking, heat generation).

BECOMING A RESIDENT of PSEDA Onega

Requirements for an investment project:

While determining the volume of capital investments, the creation (acquisition) of depreciable property is taken into account:

- ✓ expenditure on new construction;
- ✓ technical retooling;
- ✓ upgrade of fixed assets;
- ✓ renovation of buildings;
- ✓ acquisition of machinery;
- ✓ equipment (except expenditure for acquisition of passenger cars and motorcycles, for sporting, tourist and recreational watercrafts, for construction and renovation of residential premises).

However, not taken into account:

- ✓ property obtained (acquired) by the resident, the cost of which was previously included into the volume of capital investments by other residents;
- ✓ expenditure for creation (acquisition) of buildings and structures located on land plots in which implementation of an investment project is performed as of the date of the inclusion of the legal entity into the register, as well as other costs of the investment project implementation incurred prior to a specified date.

Actual volume of capital investments made during the implementation of the investment project is determined on the basis of prices for the goods (works, services) excluding value added tax.
