KITWOOD

A manufacturing company specializing in the supply of woodworking products for the timber processing enterprises in Russia, the CIS countries, Europe, and the USA.

EQUIPMENT

Machinery

The assets of the company include tractors, front-end, and fork loaders, logging trucks (all-terrain vehicles) with hydraulic manipulators and trailers. This machinery allows us to organize an uninterrupted production process and shipment of products to customers.

Equipment

For sawing raw materials, we use the SRT-240 paving machines, the CM15-40 multi saw machines, and the Bars-3a angle saw complex, automated KaraMaster lines. We dry edged timber and material for the following gouging in convective drying chambers Incoplan with the total volume of one-time loading 700 m³.

Names

We produce edged board and timber according to GOST 8486-86 and 26002-83. We ship sawn timber of natural humidity, transport humidity (18-20%±2%), chamber drying (12-14%±2%). From dry lumber, we make a dry planed board R3, a floorboard (spike-groove), a dry planed bar from 4 sides, a straight and bevelled plank, a Euro siding, Softline cladding, imitation of timber, a blockhouse, a moon groove.

ADVANTAGES

Quality

All wood processing is carried out by the KitWood company at 3 production sites.

Vologda, Pugacheva str., 40d - sawing of fine-grained raw materials.

Vologda, Elevatornaya str., 43a - sorting and sawing of logs.

Vologda, Klubova str., 99a - a full production cycle is organized here from the acceptance of raw materials to the shipment of finished products.

Square

KitWood, LLC occupies 15,000 m² of production space.

Our company produces 50 types of products.

Edged lumber KD

- Export quality according to GOST 26002-83, grade US-IV and grade V.
- Species Spruce / Pine, KD 18+-2%, 16+-2%, 12+-2%
- Cross-sections 22/25/30/32/38/44/47/50/63/75 x 100/125/150/175/200/225

Planed products

Planed mouldings:

- planed bar from 4 sides
- planed board R3
- floorboard
- Softline cladding
- planken
- imitation of timber/logs
- moon groove
- terrace board
- Euro siding

OUR PRODUCTS

Dry planed lumber spruce/pine

product type	dimensions	price, m ³	packaging
Softline cladding 	13x96x2,7m/3m/4m	grade AB - 460 Euros grade C - 350 Euros	heat shrinkage of 10 pieces
blockhouse 	36x146x3m/6m	grade AB - 400 Euros grade C - 350 Euros	transport package
straight planken 	20x120x3m/6m 20x145x3m/6m	grade AB - 410 Euros grade C - 370 Euros	transport package
