

UMMC

NFMP

Ural Mining and Metallurgical Company was founded in October 1999.

UMMC-NFMP division was founded in May 2007 in order to manage the following factories processing non-ferrous metals: JSC “Kirov non-ferrous metals processing plant” , PJSC “Revda non-ferrous metal processing works”.

Along with other products of these enterprises, UMMC-NFMP sells products of JSC “Copper Pipe Plant “(Serbia, Majdanpek).

Kirov Non-Ferrous Metal Processing plant, JSC

Revda Non-Ferrous Metal Processing plant, PJSC

Copper Tube Plant Majdanpek, Serbia

- Recognized leader among Russian manufacturers of non-ferrous metals.
- Was founded in 1956.
- Produces a wide range of flat and round rolled products from copper and copper alloys.
- The company is implementing a program of technical re-equipment of rolling-stocking capacities, and the following results have been achieved by today:
 - Adapting of high-performance technologies: processing of billets weighing 5 tons; manufacturing strips and sheets 0.5–4.0 mm thick and up to 1000 mm wide.
 - Increasing the range of products with improved characteristics (in accuracy, surface finish, stability of technological features), expanding the range of its application in various industries.
 - Reducing the cost of products through the use of new technologies and equipment.

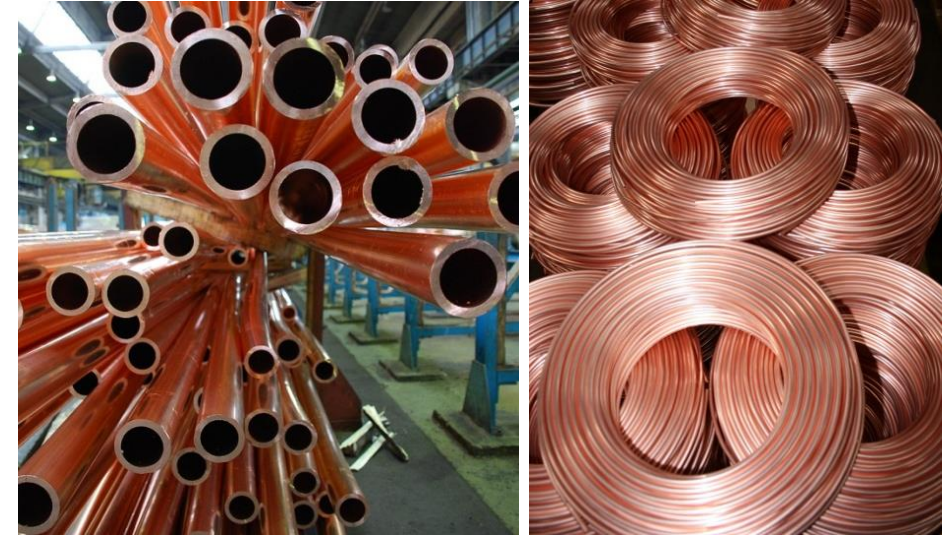

- The leading Russian company for the production of pipes, rods, wires, hollow and solid profiles, foundry blanks from copper, brass, copper-nickel alloys, bronze.
- Was founded in 1941.
- The range of products is about 10 thousand sizes and types
- The enterprise is undergoing through technical re-equipment of production capacities. The targets are:
 - Developing new products.
 - Improving the quality of products through the use of new technologies and equipment.
 - Reducing the cost of products through the introduction of new technologies and modern , productive equipment.

JSC “Copper Pipe Plant” (Serbia, Majdanpek)

- Modern production, specializing in the production of installation and industrial copper pipes.
- Was founded in 1979.
- Production of high-quality final products is ensured by: raw materials of excellent quality, high level of factory equipment, the use of modern technologies for the production of copper pipes (pressing, cold rolling, drawing).
- The plant has the capacity to produce products that meet any European, American and other national standards.

UMMC-NFMP enterprises have equipment that enables to produce more than 80 thousand different products from 95 grades of alloys from copper, brass, bronze, copper-nickel alloys and nickel, in accordance with the requirements of Russian and European standards. Industries of product use are: automobile and mechanical engineering, electronics and electrical engineering, power engineering, instrument engineering, shipbuilding, construction industry, metallurgy, etc.

Copper products

- Tubes
- Sheets, strips
- Bands
- Plates
- Rods
- Profiles
- Bars
- Billet
- Wire
- Anodes

Brass products

- Tubes
- Sheets, strips
- Bands
- Plates
- Rods
- Profiles
- Bars
- Billet
- Wire
- Anodes

Bronze products

- Tubes
- Sheets, strips
- Bands
- Rods
- Billet

Copper-nickel products

- Tubes
- Sheets, strips
- Bands
- Rods

Nickel products

- Tubes

Products of cold forming workshop

- The cable lugs
- Copper washer

JSC "Kirov non-ferrous metals processing plant"

- ISO 9001:2015
- ISO 14001:2015
- OHSAS 18001:2007

PJSC "Revda non-ferrous metal processing works"

- ISO 9001:2015
- ISO 14001:2015

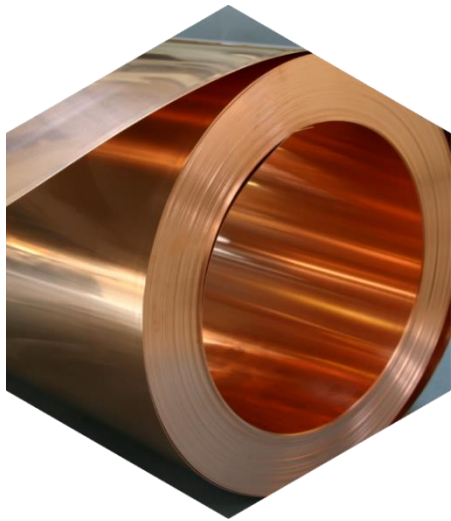

JSC "Copper Pipe Plant (Serbia, Majdanpek)"

- ISO 9001:2015
- Certificate No. FM 86683
registered in BSI (British Standards Institution)

UMMC-NFMP is the producer of products from antimicrobial copper Cu+

- Copper and its alloys with a copper content of more than 60% have antimicrobial properties.
- 99.9% of known bacteria and viruses die within the first two hours after they hit the copper surface.
- UMMC-NFMP is a registered producer of rolled metal products from antimicrobial copper and copper alloys under the trademark Cu+ in the international association Copper Alliance (USA).
- UMMC-NFMP products from antimicrobial copper.

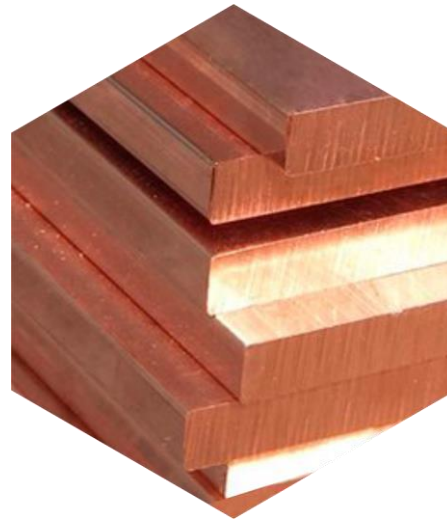

Antimicrobial Copper 

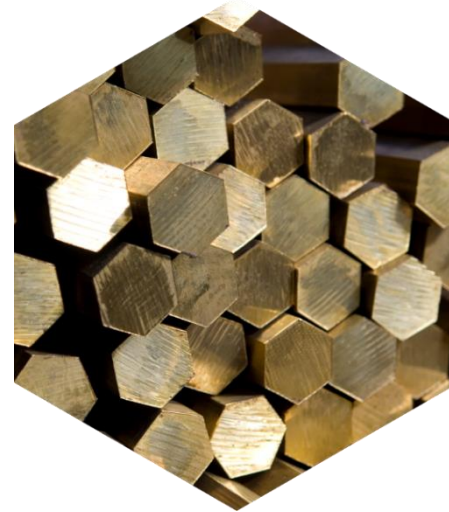

Copper and brass strips and bands

Copper, brass, bronze and copper-nickel tubes

Copper and brass sheets

Copper, brass, bronze and copper-nickel rods

Copper anodes
