## **STONE-PROCESSING**

The second business activity of **“Mine Management Company “Vozrozhdenie” Ltd** is stone processing.

The industrial production of granite products started in 1999. But in small quantities production is carrying out. For more than 30 years the stone splitting and sawing work-shop of “Mine Management Company “Vozrozhdenie” produces wide range of granite products: kerbs (lineal and radial), kerbs with customized dimensions, parapets, steps, cornices, paving stones and tiles, wall tiles with split surface.

High quality of products with different face finishing (sawn, bush-hammered, split, flamed and polished) is guaranteed by using of modern machines and tools.

The processing department is equipped with stationary diamond wire-sawing machines from **“TAF”**, radial-sawing machines from **“GMM”**, **“Denver”**. The stone splitting department is equipped with line of presses from **“MEC”**. Single machines were designed with participation of engineers of **“Mine Management Company “Vozrozhdenie” Ltd**.

Granite products from **“Mine Management Company “Vozrozhdenie” Ltd** were supplied to for furnishing of St. Petersburg Veliky Novgorod, Moscow, Tver, Yaroslavl, Pskov, Vyborg etc).

Close location of own raw materials gives us the advantage of competitive prices and flexible reaction on the customer’s inquiries.

**Production capacity per month is:**

- kerbs – over 9 000 ml,
- paving stones – over 1 000 m<sup>2</sup> (split),
- paving slabs – over 3 000 m<sup>2</sup> (sawn),
- tiles (h≥50 mm) – up to 3 000 m<sup>2</sup>.
