**INTERNATIONAL
ROAD FREIGHT
TRANSPORTATION**

since 1997

«ARCO-TOURS»

holding company is the largest operator in cargo transportation market by road for Scandinavian directions between the Russian Federation and Sweden, Norway and Denmark.

Along with the main directions of transportations we also have loadings and dischargings in Finland, Germany, Netherlands.

Nowadays our park consists of 110 on-site articulated vehicles, consisting of foreign-manufactured magistral long-haul trucks: **SCANIA**, **VOLVO**, **RENAULT** (Euro-III-V) and semi-trailers produced in Europe (92 tented semi-trailers with a length of 13.6 m, volume of 92 M³ and 18 refrigerators **YORK** with a refrigerating unit **TERMO KING** (up to -20°C).

The transport is updated each year, and its number is constantly increasing.

Also there are 10 **PEUGEOT** vans with trailers with load capacity of 1200-1750 kg and capable of carrying 12-22 m³ (4-11 euro pallets) of cargo in the holding's park.

A huge advantage of this form of transportation is the high efficiency of admission for loading and moving along the route.

All the cars are equipped with **GLONASS** sensors and possibility of **ON-LINE** monitoring of the truck movement.

«ARCO-TOURS» Ltd

is a full member of the Association of International Road Transport Carriers (**ASMAP**) and has 20 years of experience in the cargo transportation market under Carnet-TIR.

Our holding includes two transportation companies:

ARCO-TOURS Ltd.
and **AUTO STILE Ltd.**

Our holding has well-established excellent cooperation conditions with key Nordic ferry line **FINNLINES** that allows us to reduce delivery time of our customers' goods.

Services provided:

preparation of shipping documentation in Scandinavia and Russia;
expedition services in Sweden, Norway, Finland.
All actual transportations have comprehensive insurance with the insurance company **TT CLUB**.

Our company guarantees a high level of service, minimum transit time and the best rates for our partners.

We believe that the main advantages of working with customers are:

- status of customs carrier
- personal manager
- monitoring during the route
- convenient terms of the automobile transport ordering (urgent, provisional) - using only on-site rolling stock
- the possibility of weekly admission of large volumes of transport to Sweden (40-50 articulated vehicles)
- transportation of dangerous goods (ADR 2-6,8,9)
