## Scientific Centre

R&D department, our company are "Brains", where highly skilled professional engineers, develop high quality, durable, passionately Designed products

## Pilot production

Having excellent financial backup, our company has a luxury of running its own pilot production. Our passionate commitment to quality rules us to perform comprehensive tests of the products. This allows us to make products that fully meet our customers expectations

## Automated production line

Production line is equipped with modern high capacity machines, producing excellent quality seating, that has no analogues throughout Russian market

## Galvanic Workshop

The company runs its own full cycle galvanic production. Mirror chrome coating is a vital part of the chair making process, that starts from

High quality steel supply and goes further, until one shiny complete product leaves the factory

## QUALITY CONTROL

The production runs through 3 stage quality control process, in compliance with ISO 9000 standard.

1st stage - Raw materials control

2nd stage - Production process itself

3rd stage - High quality packing of the products

That's why our products comply with European industrial standards

## Post Production Storage

For our clients needs and convenience, along with the production storage, wholesale storage facilities have been built, to make distribution through Russian market easier
