

## METAL PROCESSING FOR CONSTRUCTION INDUSTRY

## **RUGLASS Production**

**Your reliable partner for metal processing  
in construction industry**

Group of companies “RUGLASS” started in 2010, as installation company for aluminum ventilated facades and curtain wall systems.

In 2013 “RUGLASS Production LLC” was established for manufacturing of solutions for building envelope application: elements of ventilated facades substructure and curtain wall systems.

Now “RUGLASS Production LLC” runs own production site for metal processing of any complexity.

## Our capabilities:

- ❑ Experienced team
- ❑ Total production area – 2 500 m<sup>2</sup>
- ❑ Own fixed assets: buildings, machinery and tools for processing, forklifts and transport
- ❑ Quality management system of the enterprise is certificated on conformity to standard ISO 9001
- ❑ Quality management system is certified according to ISO 9001
- ❑ Delivery to CIS countries and Europe
- ❑ Strong partnerships with aluminum extruders
- ❑ We are ready to provide the customer **the complete solution**: delivery of the profile and produce/ delivery needed elements of the ventilated facades.

**We process the following material:**

---

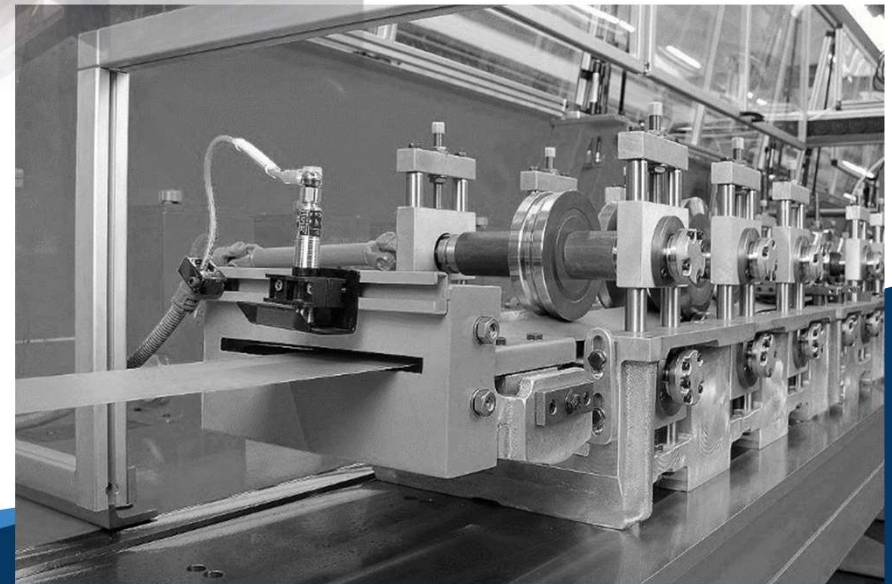

- Aluminum
- Galvanized steel
- Stainless steel
- Uncoated steel
- PVC

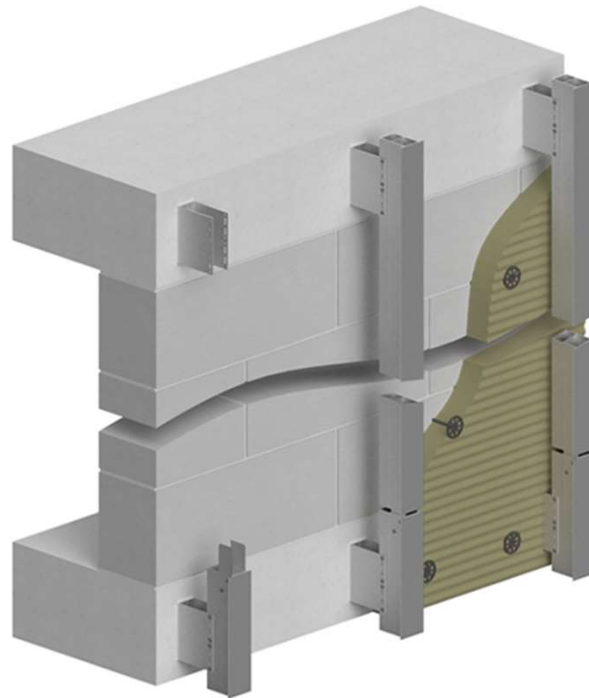

## Production capabilities:

- Cutting
- Stamping
- Bending
- Milling
- Roll forming
- Welding
- Powder Coating

## The examples of the elements of the subsystems and components for ventilated facades, produce on RUGLASS

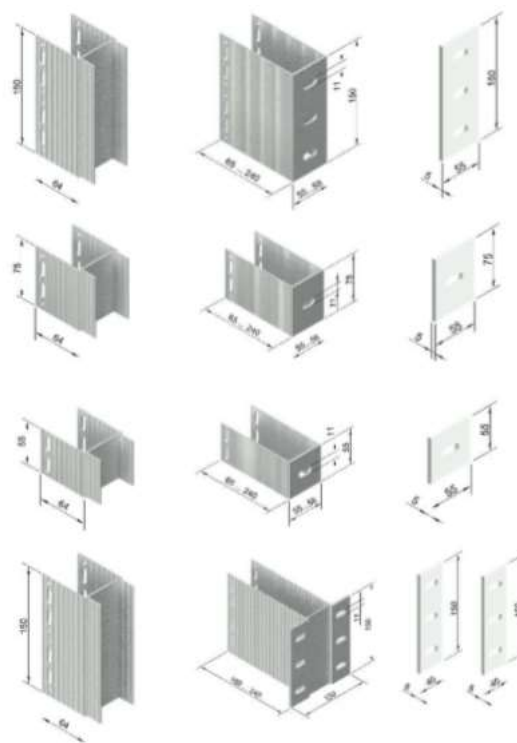

- Bracket
- Bracket fastener
- Isolator fastener
- Profiles
- Profile fastener
- Cladding fastener

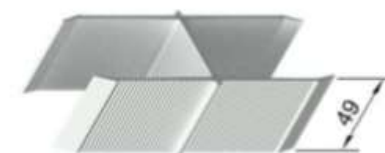

## The examples of the elements of the subsystems and components for ventilated facades, produce on RUGLASS

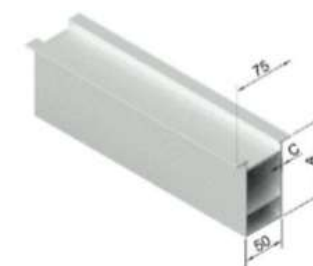

Mounting elements - Brackets – Isolator

Profile connector

Reinforced profile

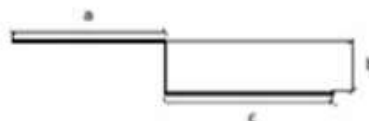

## The examples of the elements of the subsystems and components for ventilated facades, produce on RUGLASS

Mounting profile Z shaped  
(angular profile)

Profile U shaped  
(omega profile)

Cover strips

The types of cover strips: curly, simple (flat), asymmetrical, angular complex and simple.

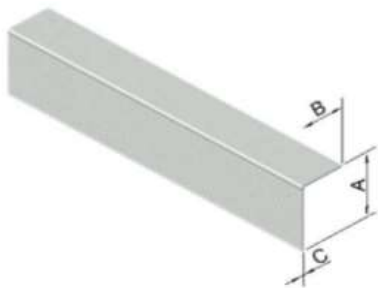

## The examples of the elements of the subsystems and components for ventilated facades, produce on RUGLASS

### L-shaped profile

Horizontal profile L-shaped, which is often called the corner for the facade or the L-shaped profile, is applied by the vertical or horizontal guide.

### Hangers/ hangers profile

### Cassette system

## **RELIABLE PARTNERSHIP**

- We are customer-oriented and strive for customers' satisfaction
- We produce high quality products
- We pay great attention to the technological process
- We are ready to cooperate within the framework of an individual project and special conditions.
- We accept and understand confidentiality in cooperation.
