– **40 000** tons per year

Pasta products
– **117 000** tons per year

Flour
– **220 000** tons per year

The Kuznecov's mill, 1898

The History of "Soyuzpichsheprom" lasts from 1898, when merchantman Kuznecov has built one of the most modern at the time steam powered mill on the Miass's riverside. His products immediately became popular and were awarded with medals.

We use modern European technologies to produce Russian traditional food.

Today "Soyuzpichsheprom" is a powerful technological enterprise with the newest equipment of the leading worldwide brands: Buhler AG, Fava, Mill servis, Hartmann, Linko, Zucami, Big Datchmen, Muyang, etc.

We could say that the exclusive value of our products is in Service management system for clients, in decreasing risks, connected with quality and delivery in time.

"Association "Soyuzpichsheprom" LLC successfully cooperates with big worldwide food retail chains:

Monthly shipments:

“Soyuzpichsheprom” Group production is well-known, deeply appreciated and loved by a lot of generations of buyers. Products with the “Союзпищепром” emblem, the “Царь” TM with its easily recognizable crown or the “Чебаркульская птица” symbol never lie too long on market stalls and they are always in demand of families in every house.

“Soyuzpichsheprom” Group is responsible for the quality of its products and guarantees good quality at every step of production. Today “Soyuzpichsheprom” Group is included in the Russian registry of natural and ecologically safe production manufacturers and providers. The enterprise is also included in the branch registry “Reliable reputation”, and also in the regional and federal tops of best food enterprises of Russia.

Our advantages

The main competitive position of "Soyuzpichsheprom" is combining a few big food manufacturers of South Ural region in one structure. It allows following one quality policy, using common manufacture and investment strategies and using complex professional help. As far as all business-processes are made inside one enterprise, the holding company controls each production stage and supplies it with quality.

"Association "Soyuzpichsheprom" combines several big food manufacturers of Chelyabinsk region.

From 1998 Soyuzpichsheprom combines:

Soyuzpichsheprom is:

1

Grain beverages factory

It is 3-floor building, which is located on Soyuzpichsheprom's territory. Built in 2017 using company's resources.

It's the first vegetable drinks factory in Russia.

It includes grain beverages production facility.
4 packaging lines: one of them is Tetra Pak, one is for yogurts, and two lines are for PET-bottle packing.
Also there are low-temperature freeze rooms on 40 tons, and specialized warehouses on 400 tons.

Rated capacity: *per day is 100 tons or 350-450 thousands of products.*

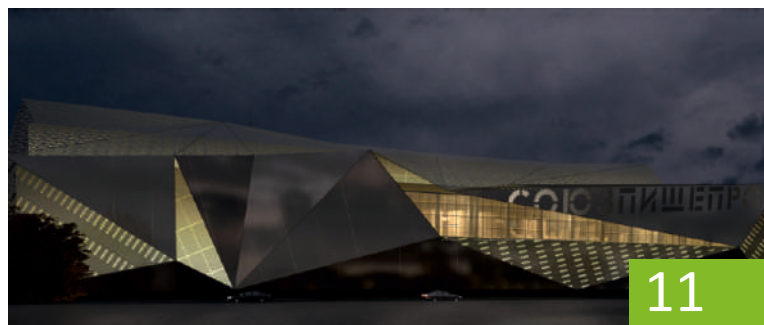

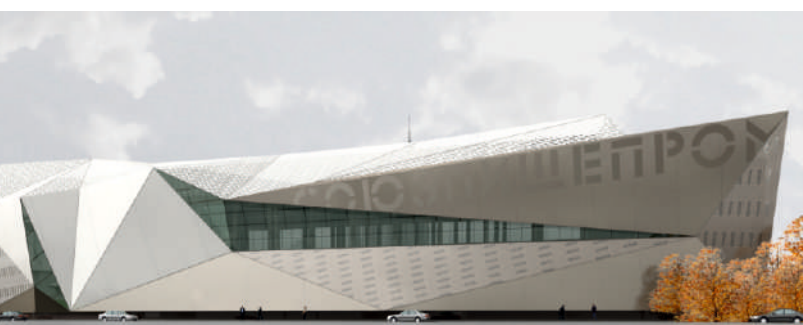

Nowadays people care too much about healthy diet and healthy lifestyle. With this fact "Soyuzpichsheprom" decided to build up a new innovative factory, grain beverages factory. This idea was accepted by region's government board, doctors and ecologists.

Grain beverages factory "Soyuzpichsheprom" is ecologically pure manufacture. The factory's building looks like more a museum or a concert hall – it is modern and it has advanced equipment. The finished product could protect our body from the bad influence of big city life.

The produced low-calorie drinks are easy to digest, satisfy hunger and protect health from the adverse conditions of a metropolis.

Market analysis shows us that healthy food market's annual growth equals to 6-8%. This index is the highest among all food products. Grain milk is the modern product, which fits to anyone's life: will it be vegan or sportsman, or anyone else.

How is plant based milk made?

Whole grains (oats, rice, wheat) and soy groats getting split up, then mixed with water and enzymes. As a result of the fermentation process, all the vegetative useful substances pass into the liquid form, which later becomes milk. The resulting milk is enriched with vitamins and sea salt. NO SUGAR ADDED (except for soy milk). Before bottling, milk is homogenized, sterilized, and subjected to shock cooling. In the end it is bottled in Tetra Pack aseptic packaging.

Shelf life -12 months.

- Easy to digest
- Good for people of all ages
- Lactose & gluten free
- Low-calorie plant fats

WAYS TO USE:

Drink

Pancakes and cakes

Coffee Tea

Cereals Porridges

Smoothies and cocktails

How are plant beverages made?

Selected grain (oats, rice), soy groats or nuts (almonds, coconut) are mixed with water and enzymes. All the beneficial components found in the feed go into the drink. Green Milk is the perfect choice for daily creativity. Mix exotic fruits, favorite berries, pumpkin, chia, flax seeds with green milk and enjoy a light and delicious delight from unusual flavors every day. Share your good mood with your loved ones!

Shelf life - 12 months.

- 100% plant-based
- Lactose free
- No milk protein
- Low-calorie plant fats

WAYS TO USE:

Drink

Coffee Tea

Cereals Porridges

Smoothies and cocktails

How is oat kissel made?

A unique manufacturing formula. Selected oatmeal is steamed using technology that does not require boiling. This preserves all the useful elements and vitamins. Through homogenization and filtration processes, a homogeneous mixture is made. After that this substance is mixed with fruits, berries and juices. Finally the oat kissel is cooled to +4 °C.

Shelf life 72 days.

- Improves immune system
- Improves GIT function
- High fiber
- Lactose & gluten free
- Beta glucan daily dose
- Lactose & gluten free
- Low-calorie

WAYS TO USE:

Looking forward to further cooperation!

The image features a dark teal background with stylized, light-colored palm fronds in the top-right and bottom-left corners. The fronds are composed of numerous fine, radiating lines, creating a textured, organic appearance.
