

S. Fyodorov Eye Microsurgery Federal State Institution

S. Fyodorov Eye Microsurgery

- ▶ S. Fyodorov Eye Microsurgery today is a unique corporation consisting of the main clinic in Moscow and ten branches all over Russia
- ▶ We provide all kinds of ophthalmosurgery treatment with high level of quality and safety
- ▶ Our mission is to make it available for everyone worldwide

S. Fyodorov Eye Microsurgery - is a well-known international brand

More than 300 highly qualified surgeons perform the wide range of eye surgery in accordance with the highest international standards. Each surgeon makes about 1000 operations per year, and this experience provides an optimal result even in the most complicated cases.

Over 32 years of our work means:

- ▶ more than 19 million of patients examined
- ▶ 7 millions of patients treated
- ▶ 300 000 surgeries every year

Cataract:

Phacoemulsification with aspheric IOL implantation

5 800 SEK

Phacoemulsification with torical and multifocal IOL implantation **9 700 SEK**

Femtosecond laser-assisted cataract surgery (FLACS) with torical and multifocal IOL implantation **11 000 SEK**

- ▶ precise accuracy on every stage of the surgery
- ▶ high refractive result predictability
- ▶ torical and trifocal IOL implantation
- ▶ fast recovery – just a few hours in outpatient department

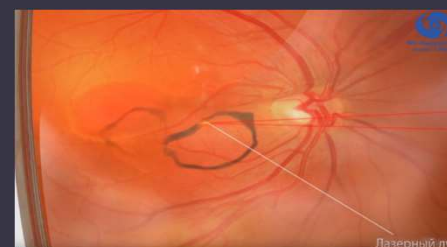

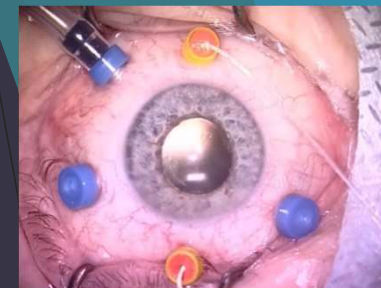

Vitreoretinal surgery:

Vitreoretinal surgery 25-29G **11 000 - 13 000 SEK**

- ▶ Microinvasive sutureless technology in retinal detachment and vitreous hemorrhage

Vitreolysis **700 SEK**

- ▶ Floaters destruction with YAG-laser Ultra QReflex TM (Ellex)

Glaucoma:

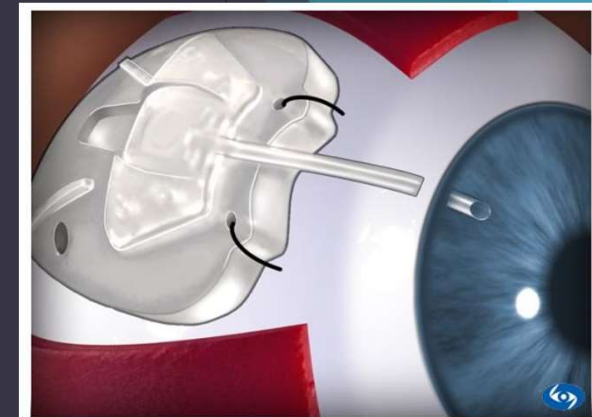

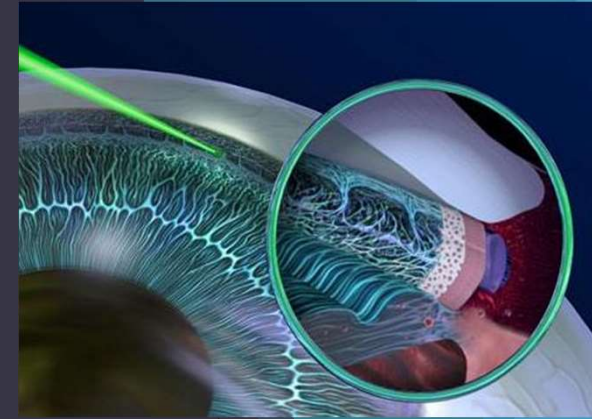

Laser glaucoma treatment - **650 SEK**

Surgical glaucoma treatment - **1800 SEK**

Drainage device implantation - **3 500 - 9 500 SEK**

We widely perform the non-penetrative deep sclerectomy as the most effective and safe technology

- ▶ Stable intraocular pressure normalization
- ▶ Minimal complication rate
- ▶ Advanced non-penetrative technologies were developed in “Eye microsurgery” to achieve safe and effective long-lasting IOP normalization

Corneal transplantation:

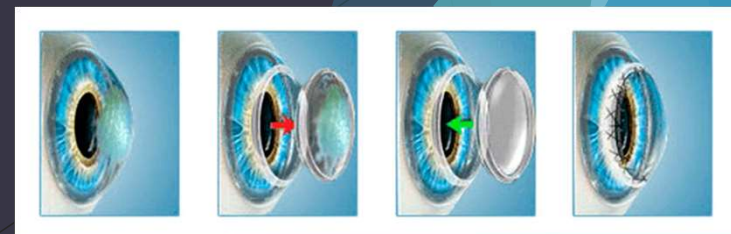

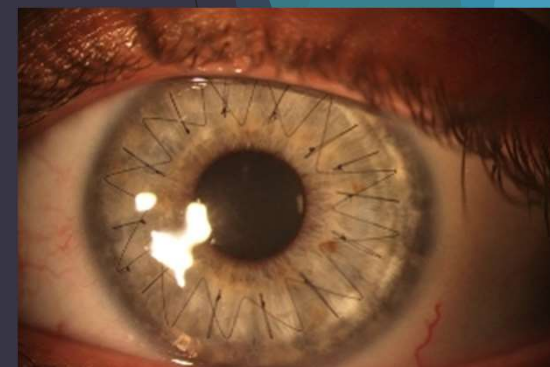

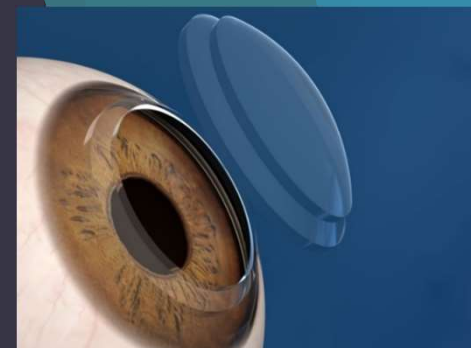

Corneal transplanation - 6 300 - 13 500 SEK

- ▶ No waiting list for donor cornea
- ▶ Femtosecond laser-assisted selective keratoplasty

We make over 1000 corneal transplantations every year: full thickness corneal transplantation, deep anterior lamellar keratoplasty and endothelial keratoplasty

Keratoprosthesis - 10 000 SEK

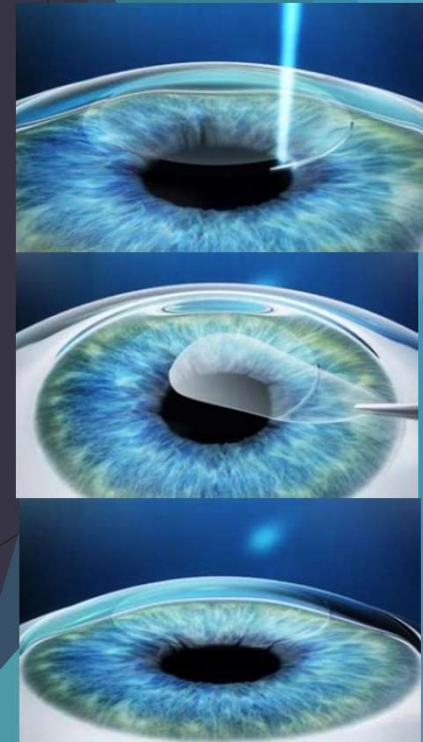

Extensive experience with different types of branded and self-produced keratoprotheses

Laser refractive surgery:

Laser refractive surgery - **6 000 - 9 000 SEK**

- ▶ All well-known last-generation laser platforms allow to perform SMILE, FLEX and customized Femto-LASIK in the most complicated cases and to achieve an optimal result
- ▶ With cutting edge refractive technologies and vast experienced surgeons “Eye microsurgery” can effectively treat patients with induced ametropias and anamnesis of eye surgeries, trauma and other corneal pathology that were rejected in other world known clinics
- ▶ Used technologies provide short recovery period, high predictability and stable refractive results

S. Fyodorov Eye Microsurgery institution is the reference center of

- ▶ Zeiss AG
- ▶ Alcon
- ▶ Ziemer Ophthalmic Systems AG

S. Fyodorov Eye Microsurgery - educational and scientific center

- ▶ Over 20 000 ophthalmologists from Russia and 30 other countries were trained in “Eye microsurgery”
- ▶ Many of our specialists are well-deserved authorities in the world scientific community and participate in the leading world ophthalmological forums as lecturers, moderators and speakers

S. Fyodorov Eye Microsurgery international activity: 11 000 patients from 108 countries every year

- ▶ Italy, UK, Macedonia, Germany, Latvia, China
- ▶ Finland, Croatia, Serbia, Hungary, Bulgaria
- ▶ Vietnam, Mongolia, Sudan, Iraq, Oman
- ▶ Algeria, Tunisia, United Arab Emirates, Egypt, Syria
- ▶ Kuwait, Lebanon, Jordan, Turkey et al.

10% of these patients came from the European Union

Services:

- ▶ Individual accompany and assistance during the examination
- ▶ Single and double accommodation rooms
- ▶ Meal services in cafe
- ▶ Free Wi-Fi
- ▶ 24 hours security

Services

- ▶ English version of web site
- ▶ English speaking personal and translators
- ▶ Distant consultation by medical reports
- ▶ Arrival and departure accompaniment services
- ▶ Security guarantees of the staying in clinic

Staying in S. Fyodorov Eye Microsurgery clinic is the optimal visual result as well as emotional pleasure

- ▶ S. Fyodorov Eye Microsurgery clinic provides high quality medical services for foreign patients not only in the main clinic in Moscow but also in any branches all over Russia
- ▶ Along with the treatment we provide the opportunity of sightseeing and getting acquainted with culture and nature of Russia
